Dear Mr Burns

The Chairman of the Fire Authority has passed to me your letter dated 9 October 2015.

You have previously been advised, on more than one occasion, that the Service and Authority have deemed you (and your associates that you refer to as Fire Service Veterans) as vexatious. This view that you were vexatious was supported by the Information Commissioner with that decision being upheld, on appeal, by the First Tier Information Tribunal. Therefore any correspondence and potential response, if any, to your queries are considered in that context.

You have also been advised that any correspondence with either the Service or the Authority should be routed through me in the first instance.

The Service has also advised you that it considers that much of your correspondence is defamatory.

This propensity to make defamatory comments is continued in your latest letter with many of your assertions being simply incorrect and unfounded. You seem to be inventing facts and attempting to compel the Service/Authority to rebut or explain your invented version of events. This is not an exercise that we will engage in.

For these aforementioned reasons I would advise you that your letter of 9 October 2015 is noted, the veracity of the contents is denied and no further comment or response will be made.

Yours sincerely

A handwritten signature in black ink, appearing to read "Bob Warren".

Bob Warren
Director of People and Development
