My Complaint.

Dear Mr. Nolan

1. I have given your letter of the 25ult., some thought;
2. You have carefully explained your role with its Statutory legal duties and as a licensed 'officer' of the Court I must assume that you will comply fully, both personally and professionally, in conforming with the spirit and letter of all those duties;
3. You have indicated your intention to investigate the circumstances of my Complaint, in effect to have the CFA/LFRS investigate itself.
It puzzles me how you can do that, but then I suppose you would know better than me;
4. Having written at length about the your legal duties in respect of compliance with the law by the CFA/LFRS, and search as I may, I cannot seem to see where you have informed me that that you have already taken the immediate legal steps necessary to discharge the CFA/LFRS compliance by stating that you are immediately going to, or have already completed these Statutory duties by informing the Pensions Regulator, not only about my Complaint, but about all the other maladministration/malfeasances which has taken place with my, and other pensions under your control and the control of your contractor the LCC~YPS, during the past 7 or more years;

5. You ask if my Complaint involves a direct Complaint against CC F.DeMolfetta's behaviour and it is clear that it does though it seems that I might not have made that point clearly enough to you.
6. You will be aware that recently CC F.DeMolfetta, with ultimate responsibility for my pensions, has fraudulently misused Public funds in response to Mr. Hamilton's self-evident blackmail (former head of Human Resources and my deputy pension scheme manager) in purchasing his silence by the use of 3 years departing 'salary' having been accused of and suspended for a 'race hate' crime, for which he was never put on trial, either civil and/or criminal.
So it is safe to say that both CC F.DeMolfetta and Mr.Hamilton who are, or have been, legally responsible to me for my pensions are thus both directly involved and thus subject to my Complaint as well;
7. I am puzzled why you ask me for documents which you must surely have in your archives and in your possession and if they have not been retained or deliberately deleted thus not available to you, then this also is a matter which you must address during your 'investigation';
8. I regret, and I am puzzled that after informing and inviting me to have a discussion with you about my Complaint that you then refused to speak with me last week when I phoned from France to speak directly with you?;
9. I am sure by now you will be aware that very few, if any, of the 2000+/- Lancashire pensioners who are Fire Service Veterans have the slightest sense of trust in any of the CFA/LFRS councillors, or their pension management staff due to either their total disinterest in this pension scandal or, in the case of the LFRS/LCC staff, their determination to do whatever it takes both legal or illegal to cover up all their criminality during these past 7 or more years;
10. This of course inevitably raises questions in my mind about *your trustworthiness* a characteristic which I see has already been raised by the posing of 10 reasonable questions to you in person by the media The Morning Bugler regarding how it was that you have obtained your appointment as Clerk to the Fire Authority?
11. I am sorry to say I share those curiosities as well. It would be beneficial to me and any future discussions I might have occasion to propose to you if you were, as speedily as possible, to let me also have your answers to those unavoidable questions.
That way we can immediately begin to have a trusting dialogue to which I hope you might , if there is a next time, wish to respond?
12. In any event your 'investigation', setting aside for the moment the curious business of you being 'judge and jury in your own court' and how you obtained your appointment, will still be useful to me because when all the investigations I have

now set in motion at the recommendation of the Pensions Regulator report to myself and the Public I will be able to compare your version with those of the findings of The Pension Regulator; HM Treasury(Public Pensions); the Serious Fraud Office; and the Local Government Ombudsman;

13. I will await the results of your 'investigation' with great interest as will no doubt all these other government agencies. If I can assist you further and I am at liberty to do so then then you must not hesitate to contact me.

Yours Truly,

[REDACTED]

R.R.B [REDACTED].
